and NSD File No. L-00-72.

Dear FCC:

The TracFone plan works so well for me and my family. Most importantly, costs are so that I can afford the minimum usage of a cellular phone that TracFone can provide - usage in emergency and/or long distance commuting safety. Please do not raise the costs for the majority of us that use this type of wonderful wireless phone in this capacity. Very sincerely, Lisa S. Carr

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Lisa S. Carr
